MACLEOD HEADS HOME AND SCHOOL

A small attendance, but a most interesting meeting of the H. & S. was held Monday evening, Rev. D. A. Ford presiding.

Minutes of previous meeting adopted as read. Brief reports of the Olds Convention were given by Mr. McMurray. Mrs. Korek, Mrs. Moore with President Ford giving the main report.

Mr. McMurray stated that Mrs. Symons had organized 39 new groups last year of which 28 were affiliated. As a result of his talk a motion was made that the Secretary purchase fifty copies of the Creed, and that these be read at future meetings.

Mrs. Korek gave a bright resume of a Panel discussion on "The Rural School" from which the speaker and Mr. McMurray asked that the Strathmore H. & S. go on record in contacting the other two Prairie Provinces to arrange one standard and curriculum for the three.

Rev. Ford discussed various resolutions which had been voted on pro or con.

He especially commented on the excellent address given by Mr. MacLeod, Mr. Herman and Rev. Cantelon. These will be partly covered in the next copy of "The News" which is now in the Printer's hands.

Rev. Ford repeated a suggestion made by Mrs. Symons that each organization should have its own Constitution and Bylaws, and urged that our group take this in hand in the near future.

Congratulations were expressed by all delegates to the honor conferred on the Strathmore H. & S. Association in having the Provincial President, Mr. M. MacLeod as a member of our group. This honor will bring added prestige to the Strathmore H. & S. Association.

President Ford next called on Mr.

MacLeod for an address.

After expressing his appreciation for the kind words made individually and collectively Mr. MacLeod explained that his first association with the H. & S. was in 1928 in Calgary when he attended a National Convention.

For three years he and Principal Crowther discussed the formation of one in Strathmore. As a result they invited Mr. and Mrs. Pannabaker to give an address in Strathmore with the result that a group was formed. Rev. S. R. Hunt being the first President.

President MacLeod urged that in meetings, one should never lose sight of the main aims, which are in the home, the parents and the child and in the H. & S. the father, mother, child and teacher, these are of primary interest to these four people.

As a result of the confusion that will result from the adoption of Daylight Saving Time, a motion was made that this group go on record in asking the Strathmore Town Council to remain on Standard Time.

INDIAN AFFAIRS

There is a joint committee of the Senate and House of Commons hearing evidence from Indians and others interested in the Reserves. The Indians who appear before the committee are mostly the chiefs, the school teachers and the native church leaders. They are nearly all full blooded Indians with their racial characteristics appearance. They are well dressed and quite fluent in the English language. Some are shy, some very excitable and sensitive but as a general thing they have been very good witnesses.

There are 125,686 Indians in Canada and about 7,205 Eskimos who are Indians under the Act.

The Indian population may have been greater at one time but since 1871 it has been gradually increasing. There are 95 reservations in Canada and there is a trust fund amounting to fifteen million dollars. Some of this money can be spent for special purposes with the consent of the Department but most of the requirements are met by the amount of about six million dollars annually voted by Parliament.

As the various parts of the country were opened up, treaties were made whereby the Indians ceded to the

Excellent Concert by Music Groups

The last in the series of six concerts arranged by the Musical Committee of the Council was given Tuesday evening in the Memorial Hall and proved a very delightful entertainment throughout. The entire series has proven of high cultured value and the committee arranging is deserving of much acclaim.

There have been four concerts by Calgary artists and two by local talent and the artists and producers of these two very ambitious programs merit the highest appreciation of a music loving audience.

To Mrs. Kennedy, Director and to Miss Georgia Chapman, Accompanist, a special word of commendation is due for the very large and responsible role they so efficiently performed.

The School Chorus made a very pleasing appearance in their colorful dresses and their singing was tuneful and well balanced.

The Second Minuet was a graceful bit dancing, Hilma Elmer and Jeanne Gannon giving their Minuet very prettily. That the entire chorus had received careful training by Mrs. Polley was evident.

These girls give promise of being included in the adult chorus in few

years hence.

In selections from the Pirate of Penzance and H.M.S. Pinafore if one may have more than one "piece de resistance" we would name:

- "I Heard a Forest Praying" by Rev. Ford. This was a delightful song of poetic feeling artistically rendered.
- "Bill of Fare" and "Simple Simon" by Rev. Ford, Dr. Giffen, Rev. Hunt and Mr. Patrick. These were acted as well as sung exceedingly well, their humor bringing forth gales of laughter.
- The chorus in "Nights Shadows Falling."
- A quartette in H.M.S. Pinafore by Rev. Ford, Mrs. Hughes, Mrs. Mercer, and Mr. Chapman.

NO FAST TIME HERE

Ever since Calgary went on Daylight Saving time, there have been countless calls to the Town Hall wondering if Strathmore would do the same thing. Numbers of people report having an hour of sleep on Monday owing to having set their clocks an hour ahead.

Steps have been taken by the Town Council to go on fast time as yet, and a letter has been received from the Provincial Government saying that the Town has not the authority to enforce Daylight Saving time.

It is understood that unofficially a poll was taken of most of the business men, to ascertain their feelings on the matter. The majority of those expressing an opinion favored being on the same time as Calgary, since they were running into confusion working on two time schedules. On the other side, two letters have been received by the Council, asking that Standard Time be adhered to.

GANGSTER

An original member of the Happy Gang KATHLEEN STOKES has been playing the organ and contributing to the general merriment of this daily program since June, 1937. Before joining this group she was active as a pianist and theatre organist in Toronto. She is heard with the Happy Gang Monday to Friday, at 12:15 p.m. over Canada's radio network.

"Over the Moonlight Sea" in which the voices and the piano accompaniment together gave the impression of waves gently lapping.

In the H.M.S. Pinafore the chorus was in a merry mood and good voice and the special actors carried through their respective roles very aptly. These included Mrs. Hughes, Mrs. Mercer, Rev. Ford, Miss J. Garrett, Dr. Giffen, Mr. B. Chapman and Mr. Patrick.

The narrative of the opera given by Mrs. Kennedy between the choruses was a very happy thought and added immeasurably to the enjoyment of the audience.

Climaxing all was the rendition of that sublime composition, Handel's Hallelujah Chorus. This transcended the power of words to describe.

BISHOP RAGG AT STRATHMORE AND CARLELAND

On Sunday, May 4, the Rev. H. R. Ragg, Anglican Bishop of Calgary will be present at the services in Carleland and Strathmore. The service at Carleland will be at 2:00 p.m. and the Bishop will be the preacher. At 7:30 p.m. nine young people of St. Michael's will receive the "Laying on of hands" in Confirmation. Bishop Ragg will conduct this service and preach.

J. KUYTEN PASSES

John Cornelious Kuyten, 63, of 721 15th Ave. W., died Thursday in Holy Cross hospital.

Mr. Kuyten was born in Tilburg, Holland, and came to Calgary 34 years ago, leaving two years later to live in Strathmore, and later in Rockyford. He returned to Calgary two-and-one-half years ago.

Surviving are his wife, Marie Antoinette, of Calgary; three sons, Frank John and Norman of Rockyford; four daughters, Mrs. Ed Goffrey and Mrs. George Kison, of Strathmore, and Marie and Diana, of Calgary, and four grandchildren.

OBITUARIES

DEATH OF MRS. McNAUGHTEN FORMERLY OF STRATHMORE

Mrs. Finlay McNaughten, 116 Bagot Street, Kingston Ontario, died suddenly at Hotel Dieu Hospital, in that city, on April 13. She was formerly Isabel Wilson, daughter of the late Joseph and Martha Wilson of Newcastle, Ontario.

Following their marriage, Mr. and Mrs. McNaughten had resided at Winnipeg, Manitoba, Strathmore, Brooks, and Calgary Alberta, and Vancouver B. C. They returned to Ontario in 1910 and for the past six years have lived at Kingston. Mrs. McNaughten was a member of the Anglican Church.

Mr. and Mrs. McNaughten, lived in Strathmore from 1911 to 1914. During the irrigation season of 1914, they lived at the C.P.R. headquarters at Bassano Dam and moved to Brooks in 1915. They resided in Brooks continuously until the spring of 1932. Both Mr. and Mrs. McNaughten will be remembered by old timers of the Strathmore district.

Besides her husband she is survived by a sister, Mrs. Sara Bennett of Toronto. The funeral was held Wednesday, April 16, from the home of her brother-in-law, George R. Mason, to Bowmanville Cemetery, Rev. Canon Spencer conducting the service.

NIGHTINGALE

By Mrs. F. H.

Mrs. Isabelle Thurston was hostess to the Women's Institute at the hall last Friday. Current events were given in answer to roll call. It was decided to send \$10 to the project for the blind, sponsored by District No. 4, and \$10 to the Cancer Fund. Mrs. Chas. Kimmitt was elected delegate to the bi-annual provincial conference. Eddie Olynuk and Wm. Frederick were nominated to attend Young People's farm week at Edmonton if they were lucky enough to be drawn in the Wheel Pool draw. A hearty vote of thanks was given to all who had a part in the plays on April 18. We were glad to have with us Mrs. Douglas Sr. and Mrs. Wm. Otto who have been unable to come for a long time and who are among our oldest members. Mrs. D. Osborne and Mrs. Andy Christofferson were welcomed as new members. Miss Grace Way, Mrs. Osborne and Mrs. Larsen were lucky winners in the birthday raffles. A delicious tea was served at the close of the meeting to nineteen members.

Mrs. Floyd Otto of Winnipeg arrived here last Friday for a visit with Mr. and Mrs. Wm. Otto.

Tom Stoodley, who has been a student in Edmonton, spent the weekend at home.

ROCKYFORD NOTES A. T. A. MEETING

A community shower was held in the Rockyford Hall April 18 in honor of Mr. and Mrs. Herbie Busch. The hall was decorated in yellow and white under the supervision of Mrs. Paul Busmann.

The pianist and drummer were from Calgary and along with Joe Tompette and Buster Schultz supplied good music for dancing.

Mr. and Mrs. Busch were presented with a lovely dinner set and other presents.

On the whole it was a very enjoyable evening.

Miss Helen Snell and Mr. Munson of Calgary spent the weekend at the Busmann home.

The Rockyford ball team had a first practice on Sunday.

The curling club held their oyster banquet in the hall Friday night, after which followed the meeting electing new officers for the coming season.

was seriously considered for some time.

At the close of the discussion Miss Jean Garrett gave a very fine talk on "Cultural Studies in Adult Education." Some of the points stressed were as follows: Our Educational menu is so varied that we are lost in a maze. The only way out is "Liberal Education" to make "complete human beings" with excellence of body, mind and character. To this end the study of Literature, Philosophy and History presented in plain simple language, as in the Bible, will give us a new understanding of our material universe, and of "man" as a thinking, spiritual being. The Greeks had several philosophies. We have lost ours and seem to have nothing to take its place.

Accepting the invitation of the Namaka teachers it was decided to hold the next meeting at Namaka on May 21.

After the meeting adjourned, a tasty and delicious lunch was served by Mrs. Stenico and the Carseland staff.

A Curse And A Blessing

We have had a tough spring haven't we? With plugged roads and flooded fields and a long delay in getting on to the land it has been enough to try a fellow's patience. But you know there is something to be got out of all things good or bad. Take these floods for instance. They cut off farms and communities, they washed out roads and even railroad grades, yes, and saddest of all they took human lives.

The water has gone now, but where? In the drier areas some of the run-off went to fill up reservoirs and stock watering dams from which it will be used during the season to irrigate the home garden and patches of feed and to quench the thirst of the stock. Those farmers an ranchers with water storage are fortunate. How about you fellows who had to watch that precious water flow past your front door steps on its way to the Hudson's Bay or the Gulf of Mexico?

And what about erosion? Sure, we have had dust storms that have taken away precious layers of our topsoil

but you know water can remove that soil just as effectively. It may be that your farm has some steep land and you have had quite a bit of erosion. Ever thought about farming on the contour like they do in some parts of the States? Or of seeding down those gullies to grass? Stubble fields and those with a good trash cover haven't eroded so much. Haven't we too much bare fallow?

Remember how they told us at school that irrigation is the application of water to the soil by artificial means for the purpose of growing crops? Yes, and what a wonderful thing is this irrigation. But what about the removal of water from the soil by artificial means for the purpose of growing crops? Drainage, that's it, and in many countries it is every bit as important a job as irrigation is here. Don't think that drainage isn't important here too however. Most irrigated farms have depressions which fill with irrigation water during the season or with run-off water in the

MUST CUT SPENDING - Canada's hope of substantially lower taxes can only be realized if Ottawa's spending is reduced. V. B. MacKinnon MacLean Hunter, Editorial Research Dept., writes in The Financial Post.

Largest single item in Ottawa's estimate for the year ending March 31, 1948, is \$164.9 millions for debt service. The figure for 1939 was \$133.1 millions.

The burden of federal debt is three and one half times as great as it was before the war. With the exception of six years during the 30's, the current expenditure for debt alone is greater than the entire Ottawa spending in any previous peacetime year.

In the United States, Washington is budgeting \$5 billions for debt service in the coming fiscal year. Translated into Canadian terms, after allowing for the difference in population and earning power, the U. S. debt expenditure would be equivalent to about \$278 millions in Canada. The burden on the Canadian taxpayer is thus some 67% greater than it is on the U. S. taxpayer.

spring. This stagnant water may kill the crops, become a nursery to thousands of mosquitoes, bring up the alkali salts out of the ground. Perhaps there is a way of draining that low spot thereby making of it a productive piece of ground.

Yes, water can be a curse and a blessing. Let's try to make it work for us not against us.

"Empties" Still Eluding Capture

Authorities at Deliveries Limited agents for the Brewing Industry, said today that the co-operation of rural residents is essential to the success of their search for E. B. Bottles who escaped from work recently.

The recapture of E. B. Bottles alias "Empties," is imperative, if the brewing industry is to maintain its normal output.

Anxious to extend their search for "Empties" to every part of Alberta, authorities at Deliveries Limited, said anyone apprehending "Empties" can count on the co-operation of freight agents who, upon apprehension of the fugitive, will arrange escort from rural centres. Freight charges will be paid by Deliveries Limited, so be sure to Ship "Freight Collect."

A reward of 20 cents per dozen is offered the person or persons responsible for the capture of Bottles. Rewards will go paid by return mail, as soon as Deliveries Limited take Bottles into custody.

FARMING NEWSProduced by the Alberta
Department of Agriculture

—THE INDIAN SUMMERFALLOW—

Quit a lot of interest has been aroused by a new method of summerfallowing that has been practiced in recent years by a number of farmers in west-central Saskatchewan.

It appears that a farmer several years ago, probably by accident, neglected to summerfallow his land, and so a great growth of weed plants occurred which set to seed. Early the next spring the farmer burnt off the crop of weeds and sowed the land to wheat, probably not expecting to get much crop. To his astonishment he harvested quite as good a crop as his neighbor and his field apparently had

fewer weed plants. Other farmers noticing this have practiced this method and report good results.

The Dominion Experimental Farm at Scott took note of this and, being always alert for new things, laid down some plans for study. The results gave them enough justification to carry on with their experimental work.

More information is needed about this new method. If it really works it will save the cost of summerfallowing, and prevent some soil-blowing in some districts. Those farmers who care to try this new method of summerfallowing on a small field should write to Mr. G. D. Matthews, Superintendent, Dominion Experimental Farm at Scott, and tell him about their results.

**F. W. GERSHAW
WRITES FROM OTTAWA**

There is always much confusion and many heart aches about the "Dry Bonus." The object the Dominion Government had in mind in paying this bonus was to assist actual farmers when there is a partial or complete crop failure. The levy of 1% on all grain gave the government the amount of \$19.7 million in the years 1939-1941 and the amount paid out as bonuses was \$45 1/2 million.

The Act is rather complicated and hard to understand and inspectors have been appointed who are familiar with every detail.

Payment can only be made under the terms of the Act and very definite regulations are necessary in order to be fair to the tax payer and to the farmer who has suffered a crop failure. There are always border line cases and often a farmer who has a poor crop, cannot qualify for the bonus because he has not become familiar with the terms. The bonus is only paid to actual farmers, not to landlords, Banks, machine or mortgage companies. In a general way no person shall be considered to be a farmer or be eligible for the bonus unless —

- (1) He is the owner or tenant of a farm from May 1 to November 1.
- (2) He lives on the farm and his primary occupation is farming or he lives within 20 miles of the farm and has no occupation other than farming, and
- (3) He is responsible for the farm operations and the disposal of the farm products, and
- (4) The farm has more than 25 acres or if less is just being developed, and
- (5) If living with a parent or brother is 20 years old and operates the farm as a separate unit and the farm consists of at least 1/2 section.

As with all legislation some get paid who really should not and many more are most deserving cannot qualify because of not understanding or observing the terms. No award shall be made on the following lands —

- (a) Experimental farms.
- (b) Market gardens.
- (c) Ranches.
- (d) Farms operated by Indian reserves.
- (e) Submarginal lands ordered evacuated by any provincial government.
- (f) Irrigated lands on which the yield per acre is more than 12 bushels of wheat or the equivalent in other crops.

All must pay the 1% into the fund but there are many grain producers who never have a chance of qualifying for the bonus. The Act is not popular with them and not popular with other producers generally as payments are made on the prairies. If efforts were made to widen the terms there would be the danger of the whole Act being cancelled.

CHRISTIAN SCIENCE

All Christian Science churches on

Sunday will hear a Lesson-Sermon on

"Everlasting Punishment." It is com-

prised in passages like these: "Again,

when the wicked man turneth away

from his wickedness, he shall have his

soul alive." (Ezekiel 18: 27). "Through

the wholesome chastisements of Love, we

are helped onward in the march to-

wards righteousness, peace, purity,

which are the landmarks of Science." (Science and Health with Key to the

HUSSAR NOTES

by M. C. B.

The roads through north to Drumheller have become passable, though still rough.

The Hussar Ladies Aid met at the home of Mrs. E. J. Bell, with Mrs. P. Pringle assisting hostess on Thursday, April 24. There were 26 members and visitors present; including Mrs. Jackson from High River, who was visiting at the home of Mr. and Mrs. W. Jackson. It was decided to do more advertising of the services held by Rev. Flint, of Bassano. The next services will be held on May 4, at 3 p.m. Mrs. L. I. Montgomery volunteered to see that this was advertised. Plans were discussed further for the bazaar; and Mrs. P. Pringle distributed more fancy work to be done; also Mrs. Seely distributed prints and other things that were on hand, so the work should be progressing well. The May meeting will be on May 15, at the home of Mrs. E. F. Blake, with Mrs. O. Blake, assisting hostess. The program will be one in honor of "Mothers' Day." The June meeting will be at the home of Mrs. Mads Jensen on June 12, and the September meeting at the home of Mrs. Karl Knudsen.

The following program was enjoyed: readings by Mrs. I. Seely, and Mrs. W. Jackson and songs by Mrs. Karl Knudsen.

FARMER'S COLUMN--

By R. J. M.

Many farmers are now receiving their Registered seed grain ordered through the Strathmore & District Seed Growers Association. This seed bears a registration tag. These tags should be retained by the purchaser and submitted to the Dominion Fieldman when he comes to make your field inspection. High priced seed should receive every attention possible by the purchaser. Therefore, I recommend that it be treated with one of the mercurial dusts. At time of treating is where mixing of varieties might well begin, so be sure that all machines, platforms, seed grain drills or tillers are thoroughly cleaned. A small air pump used for gasoline lamps or a tire pump will help to clean machines. I would further recommend that the seed be resacked in the same bags as when received for transportation to the field.

To clarify a point often misunderstood, Generation and Registration. Generation refers to the generation removed from elite seed. That is, if grown for two years the resulting grain would be third generation. The Registered Number 1, 2, or 3 seed refers to the quality. Seed may be first generation but because of light weight, smut or weed seeds the quality may be lowered to a number three. And again, you may have third generation which is of first quality, namely Registered No. 1. It is interesting to note that new regulations list only first generation and all other seeds are registered.

Those interested in producing registered grain from stocks bought this spring should make application to Mr. A. Wier, Plant Products Division, Dominion Department of Agriculture, Calgary before July 1. For the benefit of our seed Cleaning Plant, this should be done by the majority of our new seed growers. This application should show your name, address, and correct land location, together with the kind and variety of crop to be inspected.

Some care should be taken when planting this good seed. See that it is sown on clean summerfallow or new breaking. Stubble land is a poor bet as volunteer grain makes roguing a much bigger task. When seeding, be sure to leave a margin around the outside of the field that can be cultivated to keep weeds killed. If to be sown paralleling similar grain but of a different variety, leave a margin of at least one rod. This is necessary to prevent mixing at harvest and cross fertilization by wind. This latter recommendation must be adhered to rigidly.

During the summer, frequent trips must be made through the field to pick out impurities and other grains. This is called roguing and should be done carefully. If part of the field is contaminated by other grains washed onto your field, isolate these spots or cultivate them out.

This subject is too large to treat in one article so look for more news next week.

Horse Co-Op Pays 1 1/2 Million In Year

The third annual meeting of the Horse Co-operative Marketing Association recently held at Swift Current, Saskatchewan, reported marked progress in its activities for 1946 and which is of vital interest to Western farmers.

The financial position of the Association has progressed to a point where it is now out of debt. A year ago the capital debt was over a million dollars. This position has enabled the Board of

Directors to allocate the net proceeds to further payments on horses shipped to the Edmonton and Swift Current Plants in 1946. The final return to 1946 shipments will be 2.9 cents per pound. During 1947, 6.5 cents per pound will be paid on these horses. This final return to farmers is twice the price received a year ago.

Following the annual meeting, the Board of Directors has decided to increase the initial payment to 2 1/2 cents

per pound for grade A horses, f.o.b. shipping points, commencing May 1st. Farmers, who have shipped horses to the Plants prior to May 1 in 1947, will receive further payments at a later date in order to equalize the price increase. All net proceeds from plant operations will be allocated to horses shipped in 1947 on an equalized basis.

The above plans have been made possible by the improved financial position of the Co-operative. Farmers are urged to send their surplus horses to the Co-operative. A continuity of supply in May and June will greatly assist the Co-operative to improve its position further. The final success in 1947 is dependent upon farmers' support. There are many incorrect statements made at country points respecting the operations of the Association. Farmers, who ship horses to the Co-operative, will fully participate in all proceeds.

The markets for all products in 1947 are encouraging. The Association through its management has done an excellent and efficient job. Future progress is dependent upon the farmers' support and the continuity of horse supply.

RURAL GLEICHEN

Mrs. R. S. Haskayne and her son Stan of Bassano motored to Manville the first of last week to attend the wedding of her nephew Bob Holden Tuesday evening. They returned Wednesday.

CANADA'S TEXTILE INDUSTRY is not generally regarded as being anything very exciting. It is true that in normal peace-time years textiles led all other industries in employment and wages paid. But that means we are just a part of regular daily living in Canada. It makes us about as exciting as a kitchen table.

DURING THE WAR, Canada's hundreds of textile plants turned out millions of yards of urgently-needed supplies. Today we are working hard to catch up with the heavy and growing civilian demands of the post-war. We provide thousands of jobs to Canadian citizens at new high wage levels. True, these factors do not seem exciting but it is nice to know that we have a place in Canada's way of living. A kitchen table may not be exciting but it is important to the household.

**WHAT is the
Horse Co-operative
Marketing Ass'n?**

It is owned by 14,500 farmers and ranchers in Alberta and Saskatchewan.

The operations in 1946 resulted in a full return of 9.9c per lb. for "A" horses. Initial payment was 2c per lb. 60c per 100 is now being paid, and 30c per 100 is being held in reserve.

Shareholders now own the plants at Edmonton, Alta., and Swift Current, Sask. There is no debt.

What About 1947-

The Co-operative is now making an initial payment of 2.5c per lb. for grade A horses, f.o.b. shipping point, commencing May 1, 1947—an increase of ½c per lb. One hundred lbs. shrink allowance on all horses. You will also participate in net proceeds of 1947.
